1. THE USAID Q4H ACTIVITY

The USAID Q4H Activity seeks to support the Government of Ghana to strengthen its institutional capacity to improve the availability and provision of quality health services in public and private health sectors for improved health outcomes in Ghana, with a focus on poor and vulnerable populations. This is being achieved through the following three strategic objectives:

Objective 1: Strengthen national, regional, and district leadership and governance of quality management (QM) structures and processes.

Objective 2: Institute processes to empower and capacitate local leaders and teams to identify and address systemic or local QM challenges, including improving the use of data in public and private service delivery points.

Objective 3: Strengthen the capacity of Community Health Management Committees (CHMCs) to coordinate and promote a culture of quality.

The Activity is being implemented at the national, regional, and district levels, focusing on the 17 USAID Zones of Influence districts in the Northern, North East, Upper East, and Upper West Regions and nine districts in the Oti, Volta, and Western Regions.

2. PURPOSE AND FOCUS

2.1 CONTEXT AND STATEMENT OF NEED

The Q4H Activity supports over 265 work improvement teams (WITs) across seven targeted regions to use quality improvement (QI) processes and tools to identify and address service delivery gaps through QI projects. Currently, these QI projects generate extensive data that are not available in a centralized and user-friendly platform for analysis and utilization. The national District Health Information Management System 2 (DHIMS 2) is not able to capture data on the process indicators of these QI projects. Additionally, the Activity supports regional and district supervisors in conducting regular supportive supervision to guide WITs to implement their QI projects by using paper-based checklists, which makes it difficult to monitor visit results and action plan implementation in real time. The Activity also uses Excel-based databases for its outcome and process indicators, so a more robust database system is needed.

To enhance data management, analysis, and visualization, as well as its use for continuous QI, the Q4H Activity intends to develop an internal DHIS2 platform with mobile capabilities that will include:

- An aggregate and events reporting system that aligns with Q4H Activity’s data collection, analysis, visualization, and reporting requirements.
- Data elements, datasets, indicators, dashboards, and interactive scorecards for Q4H Activity’s performance indicators and WITs’ QI projects.
- Tracker systems to monitor the implementation of QI projects and action plans.
- A supportive supervision tool to monitor supportive supervisions to WITs.

DHIS2 is the preferred and most widely used data management platform in Ghana, as the country’s routine health information system, supportive supervision system, and other health databases are all
DHIS2 platforms. Upon deployment, the internal DHIS2 platform will be accessible to staff, QM teams, QI coaches, supervisors, and WITs at all levels of the healthcare system, as well as others determined by USAID and the Q4H Activity. They will be able to directly enter and analyze data using laptops, tablets, or mobile phones with the DHIS2’s user-friendly interface and visualization tools.

2.2 PURPOSE OF THE RFP

The Q4H Activity anticipates issuing a subcontract to develop and deploy the aforementioned internal DHIS2 platform and train Q4H Activity staff on its use. A separate provider will be used to host the internal DHIS2 platform.

2.3 OVERVIEW OF ACTIVITIES

The subcontractor will be responsible for the following activities:
1. Assessment – Conduct a needs assessment to understand Q4H Activity’s data collection, analysis, visualization, and reporting requirements.
2. Consultation – Discuss and agree on the designs of the internal DHIS2 platform with the Q4H Activity team.
3. Configuration – Install and configure the internal DHIS2 platform based on Q4H Activity’s needs.
4. Customization
   a. Develop organization units and hierarchies, including groupings and ownership for targeted facilities.
   b. Develop data elements, datasets, and indicators.
   c. Design data entry forms for efficient data capture with online, offline, and mobile capabilities.
   d. Develop dashboards and interactive scorecards for various activity areas.
   e. Develop import scripts for bulk data import.
5. Security – Create user roles and groups, routines for managing users, defined access to features, appropriate sharing of content, and data security protocols.
6. Testing – Conduct thorough testing of the internal DHIS2 platform to ensure functionality and data integrity.
7. Documentation – Develop user manuals and training materials.
8. Training – Conduct training for Q4H Activity staff. This can be done virtually or in-person in Accra, Ghana.
9. Feedback and Update – Incorporate feedback and update the internal DHIS2 platform before full deployment.
10. Deployment – Support the deployment of the internal DHIS2 platform with mobile capabilities.
11. Ongoing technical support – Provide technical assistance as needed until August 31, 2025.

2.4 COMPONENTS AND DELIVERABLES

The internal DHIS2 platform should include the following components:
1. Aggregate Reporting – Q4H Activity’s Performance Monitoring Plan (PMP) has 20 indicators that are measured monthly using data from DHIMS 2. The aggregate reporting component will be used monthly to report on these indicators using an import script. Dashboards and interactive scorecards will be developed and deployed to visualize key indicators.
2. Events Reporting – Q4H Activity’s PMP also has 21 other indicators that are measured through periodic health facility surveys. The events reporting component will be used to collect data on these health facility-based indicators.

3. Project Tracker – The Q4H Activity supports WITs to design and implement QI projects to address quality of care gaps. The project tracker will be used to monitor the implementation of these QI projects following the Plan-Do-Study-Act model and evaluate the effectiveness of these QI projects in improving health outcomes.

4. Action Tracker – During supportive supervision, supervisors review the implementation of previous action plans before developing new ones with WITs. The action tracker will be used to monitor the implementation of action plans during these supportive supervision visits.

5. Supportive Supervision Tool – The Activity supports regional and district supervisors to conduct supportive supervision visits to WITs and guide them in implementing their QI projects. The supportive supervision tool will be used to enhance and monitor these supportive supervision visits.

**Deliverables**
- A functional internal DHIS2 platform with the aforementioned components that meet the Q4H Activity’s requirements and can be deployed through the DHIS2 mobile application.
- User manuals and training materials on the internal DHIS2 platform.
- Test reports documenting the functionality of the internal DHIS2 platform.
- Training for Q4H Activity staff.

2.5 **TYPE OF CONTRACTING**

The Q4H Activity anticipates issuing a subcontract to the successful Offeror to implement the scope in this RFP. The award will be fixed-price and involve payments tied to the completion of deliverables. The award will be made to the successful Offeror whose offer presents the best value considering technical merits and price. Trade-off between technical merits and price may take place. Accordingly, the award may not be made to the lowest price. The cost proposal will be reviewed for cost reasonableness and efficiency.

C.5 52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS. (AUG 2020)

(a) (1) The Offeror certifies, to the best of its knowledge and belief, that—
   (i) The Offeror and/or any of its principals—

   (A) Are □ are not □ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of
   contracts by any Federal agency.

   (B) Have □ have not □, within a three-year period preceding this offer, been convicted of or had a civil judgment
rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain,
or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes
relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction
of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if
offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation);

   (C) Are □ are not □ presently indicted for, or otherwise criminally or civilly charged by a governmental entity
with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision.

   (D) Have □, have not □, within a three-year period preceding this offer, been notified of any delinquent Federal
taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

   (1) Federal taxes are considered delinquent if both of the following criteria apply:
   (i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not
finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the
liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
   (ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax
liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection
action is precluded.

   (2) Examples.
(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has □ has not □, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror’s responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror non responsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

   (iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(2) Was convicted of a felony criminal violation under any Federal law within the preceding 24 months, where the awarding agency is aware of the conviction, unless an agency has considered suspension or debarment of the

C.9 52.209-13 VIOLATION OF ARMS CONTROL TREATIES OR AGREEMENTS-CERTIFICATION (NOV 2021)

(a) This provision does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services as defined in Federal Acquisition Regulation 2.101.

(b) Certification. [Offeror shall check either (1) or (2).]

   __ (1) The Offeror certifies that--

   (i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President’s or Secretary of State’s determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-
(ii) No entity owned or controlled by the Offeror has engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/; or

(2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.

(c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.

(1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.

(2) If there may have been such activity, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:

   (i) An inability to certify compliance.
   (ii) An inability to conclude compliance.
   (iii) A statement about compliance concerns.

(3) If so, determine whether the Offeror or any person owned or controlled by the Offeror has engaged in any activity that contributed to or is a significant factor in the determination in the report that one or more of these foreign countries is in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.

(4) The Offeror may submit any questions with regard to this report by email to NDAA1290Cert@state.gov. To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.

(d) Do not submit an offer unless—

(1) A certification is provided in paragraph (b)(1) of this provision and submitted with the offer; or

(2) In accordance with paragraph (b)(2) of this provision, the Offeror provides with its offer information that the President of the United States has

   (i) Waived application under 22 U.S.C. 2593e(d) or (e); or

   (ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C. 2593e(b).
(e) Remedies. The certification in paragraph (b)(1) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly submitted a false certification, in addition to other remedies available to the Government, such as suspension or debarment, the Contracting Officer may terminate any contract resulting from the false certification.

(End of provision)

C.10§ 52.215-6 PLACE OF PERFORMANCE (OCT 1997)
